

Article type	Article title	Author	Year	Vol	Issue	Page
Original Article	Influence of intersegmental plane size and segment division methods on preserved lung volume and function after pulmonary segmentectomy	Hiroyuki Tao	2019	67	2	234-238
Original Article	Clinicopathologic characteristics of non-small cell lung cancer in patients with smoking-related chronic obstructive pulmonary disease	Ryo Maeda	2019	67	2	239-246
Original Article	Risk factor analysis of cerebral infarction and clinicopathological characteristics of left upper pulmonary vein stump thrombus after lobectomy	Aritoshi Hattori	2019	67	2	247-253
Original Article	Is postoperative anticoagulation necessary after left innominate vein division in general thoracic surgery?	Kenji Suzuki	2019	67	2	254-258
Original Article	Risk assessments for broncho-pleural fistula and respiratory failure after lung cancer surgery by National Clinical Database Japan	Shunsuke Endo	2019	67	3	297-305
Original Article	Management of acute ischemic stroke after pulmonary resection: incidence and efficacy of endovascular thrombus aspiration	Ikuo Fukuda	2019	67	3	306-311
Original Article	Updated meta-analysis of survival after extrapleural pneumonectomy versus pleurectomy/decortication in mesothelioma	Dimitrios Magouliotis	2019	67	3	312-320
Original Article	Outcomes and risk factors after adjuvant surgical treatments for Mycobacterium avium complex lung disease	Katsuo Yamada	2019	67	4	363-369
Original Article	Risk factors for postoperative complications and long-term survival in elderly lung cancer patients: a single institutional experience in Turkey	Celal Sezen	2019	67	5	442-449
Original Article	Ligating the pulmonary vein at the pericardial reflection is useful for preventing thrombus formation in the pulmonary vein stump after left upper lobectomy	Hiroyuki Kaneda	2019	67	5	450-456
Original Article	Long apnoeic period deteriorates cardiac death donor lung function in a rat EVLP model	Toyofumi Chen-Yoshikawa	2019	67	5	457-463
Original Article	Natural history of bulla neogenesis for primary spontaneous pneumothorax: a propensity score analysis	Kenji Tsuboshima	2019	67	5	464-469
Original Article	Multimodality therapy for thymoma patients with pleural dissemination	Shota Nakamura	2019	67	6	524-529
Original Article	Clinical analysis of pneumonectomy for destroyed lung: a retrospective study of 32 patients	Ilhan Ocakcioglu	2019	67	6	530-536
Original Article	Concurrent chemoradiotherapy using cisplatin and S-1, followed by surgery for stage II/IIIA non-small cell lung cancer	Tomoshi Tsuchiya	2019	67	6	537-543
Original Article	Outcomes and predictive factors for pathological node-positive in radiographically pure-solid, small-sized lung adenocarcinoma	Hiroyuki Kayata	2019	67	6	544-550
Original Article	Reoperation for postoperative bleeding following pulmonary resection: a report of a single-center experience	Motoki Yano	2019	67	7	608-614
Original Article	Preoperative biopsy does not affect postoperative outcomes of resectable non-small cell lung cancer	Yohei Taniguchi	2019	67	7	615-623
Original Article	Lung transplantation via cardiopulmonary bypass: excellent survival outcomes from extended criteria donors	Kentaroh Miyoshi	2019	67	7	624-632
Original Article	Prediction of prolonged air leak after lung resection using continuous log data of flow by digital drainage system	Keiju Aokage	2019	67	8	684-689
Original Article	Optimal sublobar resection for c-stage I non-small cell lung cancer: significance of margin distance to tumor size ratio and margin cytology (Supplementary analysis of KLSG-0801): complete republication	Nobumasa Takahashi	2019	67	8	690-696
Original Article	Quantitative computed tomography for predicting cardiopulmonary complications after lobectomy for lung cancer in patients with chronic obstructive pulmonary disease	Yoshiyuki Yasuura	2019	67	8	697-703
Original Article	Predictive importance of galectin-3 for recurrence of non-small cell lung cancer	Yoko Kataoka	2019	67	8	704-711
Original Article	Non-small cell lung cancer with pathological complete response: predictive factors and surgical outcomes	Norihito Okumura	2019	67	9	773-781
Original Article	Three risk factors for pulmonary metastasectomy in patients with hepatocellular carcinoma	Akifumi Nakamura	2019	67	9	782-787
Original Article	Chest wall/parietal pleural invasions worsen prognosis in T4 non-small cell lung cancer patients after resection	Akira Sakurada	2019	67	9	788-793
Original Article	Early chest tube removal after surgery for primary spontaneous pneumothorax	Shogo Toda	2019	67	9	794-799
Original Article	Lymphatic invasion is a cause of local recurrence after wedge resection of primary lung cancer	Natsumi Matsuura	2019	67	10	861-866
Original Article	Impact of enhanced recovery after surgery on outcomes of elderly patients undergoing open thoracic surgery	Satoshi Shiono	2019	67	10	867-875
Original Article	A risk scoring system for predicting visceral pleural invasion in non-small lung cancer patients	Kazuhiro Funai	2019	67	10	876-879

Article type	Article title	Author	Year	Vol	Issue	Page
Original Article	Influx of air into the left atrium during lung resection	Kenta Nakahashi	2019	67	10	880-883
Original Article	Sarcopenia predicts poor postoperative outcome in elderly patients with lung cancer	Yo Kawaguchi	2019	67	11	949-954
Original Article	If post-thoracotomy pain is the target, Integrated Thoracotomy is the choice	Mohammed El-Hag-Aly	2019	67	11	955-961
Original Article	Radiological findings and surgical outcomes of pulmonary metastases originating from biliary tract carcinoma	Koji Kawaguchi	2019	67	11	962-968
Original Article	Unexpected conversion to thoracotomy during thoroscopic lobectomy: a single-center analysis	Cem Kalafat	2019	67	11	969-975
Original Article	Therapeutic strategy for acute pleural empyema: comparison between retrospective study and prospective study	Hitoshi Suzuki	2019	67	12	1048-1055
Original Article	Quality assessment using EQ-5D-5L after lung surgery for non-small cell lung cancer (NSCLC) patients	Toru Mizuguchi	2019	67	12	1056-1061
Original Article	Use of electromagnetic navigation bronchoscopy in virtual-assisted lung mapping: the effect of on-site adjustment	Masaaki Sato	2019	67	12	1062-1069
Original Article	The clinical characteristics and surgical results of smoking-related young pneumothorax	Kenji Tsuboshima	2019	67	12	1070-1074
Original Article	Clinical features of HIV-infected patients with non-small-cell lung cancer after lung resection	Ayaka Asakawa	2020	68	1	38-42
Original Article	The prognostic nutritional index in resected high-grade pulmonary neuroendocrine carcinoma	Masayuki Okui	2020	68	1	43-48
Original Article	Desaturation during the stair-climbing test for patients who will undergo pulmonary resection: an indicator of postoperative complications	Noriyoshi Sawabata	2020	68	1	49-56
Original Article	Prolonged warm ischemia exacerbated acute rejection after lung transplantation from donation after cardiac death in a mouse	Seichiro Sugimoto	2020	68	1	57-62
Original Article	Urgent lung transplantation in acute fibrinous and organizing pneumonia: a sliding door or a new perspective?	Alessio Campisi	2020	68	2	136-141
Original Article	Outcomes of combination therapy including rituximab for antibody-mediated rejection after lung transplantation	Hiroshi Date	2020	68	2	142-149
Original Article	Impact of age on the recovery of six-minute walking distance after lung cancer surgery: a retrospective cohort study	Hiroaki Nomori	2020	68	2	150-157
Original Article	Hydrogen water alleviates obliterative airway disease in mice	Naoki Ozeki	2020	68	2	158-163
Original Article	Clinicopathological features of intraoperative pleural lavage cytology for non-small cell lung cancer	Akira Sakurada	2020	68	2	164-169
Original Article	Intercostal block vs. epidural analgesia in thoroscopic lung cancer surgery: a randomized trial	Kazuhiro Ueda	2020	68	3	254-260
Original Article	Prognostic factor and treatment strategy for clinical N1 non-small cell lung cancer	Masaya Tamura	2020	68	3	261-265
Original Article	Reduction of air leakage using linear staple device with bioabsorbable polyglycolic acid felt for pulmonary lobectomy	Hajime Saito	2020	68	3	266-272
Original Article	Is there any relationship between quality of life and the level of sympathectomy in primary palmar hyperhidrosis? Single-center experience	Mustafa Dogru	2020	68	3	273-279
Original Article	Early postoperative inflammatory response by procedure types: stapler-based segmentectomy versus lobectomy	Fumitsugu Kojima	2020	68	3	280-286
Original Article	Investigation of displaced bronchi using multidetector computed tomography: associated abnormalities of lung lobulations, pulmonary arteries and veins	Hiroshi Yaginuma	2020	68	4	342-349
Original Article	Surgical treatment of single and multiple thymoma recurrences	Angelo Carretta	2020	68	4	350-356
Original Article	Efficacy of complete video-assisted thoracoscopic surgery lobectomy using the three-dimensional endoscopic system for lung cancer	Takeshi Mimura	2020	68	4	357-362
Original Article	A novel suction-based lung-stabilizing device in single-port video-assisted thoracoscopic surgical procedures	Toshihiko Sato	2020	68	5	503-507
Original Article	The impact of surgical chest wall damage caused by classic thoracotomy on pulmonary function and morphology	Fumitsugu Kojima	2020	68	5	508-515
Original Article	Effects of clipping endoscopic thoracic sympathectomy at Th4 on cardiopulmonary functions, quality of life and psychosocial functions	Gurhan Oz	2020	68	5	516-522
Original Article	Pulmonary carcinoid tumours: incidence, histology, and surgical outcome. A population-based study	Tomas Gudbjartsson	2020	68	5	523-529

Article type	Article title	Author	Year	Vol	Issue	Page
Original Article	Thoraco-abdominal neuroblastoma resection: the thoracophrenolaparotomic (TPL) approach	Giuseppe Martucciello	2020	68	6	604-608
Original Article	Investigation of surgical technique for bronchial stump closure after lobectomy in animal model	Morihiro Okada	2020	68	6	609-614
Original Article	Long-term effects of pleural defect repair using sheet materials in a canine model	Noriyuki Matsutani	2020	68	6	615-622
Original Article	The impact of perioperative heparin bridging therapy in lung cancer surgery	Masataka Mori	2020	68	6	623-628
Original Article	Significant prognostic determinants in lung cancers of the superior sulcus: comparable analysis of resected and unresected cases	Yoshihisa Shimada	2020	68	8	801-811
Original Article	Lobe-specific outcomes of surgery for lung cancer patients with idiopathic interstitial pneumonias	Kenji Suzuki	2020	68	8	812-819
Original Article	Clinical feature of diagnostic challenging cases for pleural biopsy in patient with malignant pleural mesothelioma	Masaki Hashimoto	2020	68	8	820-827
Original Article	Expanded indications for auto-lung transplant technique	Hiroshi Date	2020	68	8	828-832
Original Article	Airway bacteria of the recipient but not the donor are relevant to post-lung transplant pneumonia	Kentaroh Miyoshi	2020	68	8	833-840
Original Article	Cluster circulating tumor cells in surgical cases of lung cancer	Noriyoshi Sawabata	2020	68	9	975-983
Original Article	Comparison of medium-term survival outcomes between robot-assisted thoracoscopic surgery and video-assisted thoracoscopic surgery in treating primary lung cancer	Tomohiro Haruki	2020	68	9	984-992
Original Article	Pulmonary resection for nontuberculous mycobacterial pulmonary disease: outcomes and risk factors for recurrence	Takuma Yotsumoto	2020	68	9	993-1002
Original Article	Enhanced recovery after surgery: adherence and outcomes in elderly patients undergoing VATS lobectomy	Federico Mazza	2020	68	9	1003-1010
Original Article	Characteristics and risk factors of recurrence in clinical stage I non-small cell lung cancer patients undergoing anatomic segmentectomy	Terumoto Koike	2020	68	9	1011-1017
Original Article	Thoracoscopic surgery under local anesthesia for high-risk intractable secondary spontaneous pneumothorax	Tetsuya Fukui	2020	68	10	1148-1155
Original Article	Venous thromboembolism in non-small cell lung cancer patients who underwent surgery after induction therapy	Yasunori Kaminuma	2020	68	10	1156-1162
Original Article	Postoperative prognostic nutritional index as a prognostic factor after non-small cell lung cancer surgery	Satoshi Shiono	2020	68	10	1163-1171
Original Article	Prognosis of patients with recurrence after pulmonary metastasectomy for colorectal cancer	Yasushi Sakamaki	2020	68	10	1172-1178
Original Article	Survival outcomes of resection for pulmonary malignancies including non-small cell lung cancer and pulmonary metastasis after esophagectomy for esophageal carcinoma	Masatsugu Hamaji	2020	68	10	1179-1186
Original Article	Is left-side DaVinci™ procedure challenging? Initial experiences of a single institute	Toshihiko Sato	2020	68	11	1285-1289
Original Article	Short and mid-term outcomes of multimodal treatment for locally-advanced non-small cell lung cancer in elderly patients	Alberto Salvicchi	2020	68	11	1290-1297
Original Article	Prognostic impact of the number of involved lymph node stations in patients with completely resected non-small cell lung cancer: a proposal for future revisions of the N classification	Hideaki Kojima	2020	68	11	1298-1304
Original Article	Surgery or stereotactic body radiotherapy for metachronous primary lung cancer? A propensity score matching analysis	Takuro Miyazaki	2020	68	11	1305-1311
Original Article	Clinicopathological significance of staple line coverage with an oxidized regenerated cellulose sheet after bullectomy for primary spontaneous pneumothorax	Mitsugu Omasa	2020	68	12	1412-1417
Original Article	γ-glutamyl hydroxymethyl rhodamine green fluorescence as a prognostic indicator for lung cancer	Jun Nakajima	2020	68	12	1418-1424
Original Article	Safety of the anterior approach versus the lateral approach for chest tube insertion by residents treating spontaneous pneumothorax: a propensity score weighted analysis	Akihiro Shiroshita	2020	68	12	1425-1431
Original Article	Prediction formula for predicted diffusion capacity of lung for carbon monoxide in pulmonary surgery	Hironaga Kanno	2020	68	12	1432-1438
